●	Scheduled Maintenance
⚡	Unscheduled Maintenance
▼	System Trunking Outage

	Date Time	System(s) Impacted	Incident Summary
–	02-03 0800-1300	North Simulcast (San Marcos Mountain and Red Mountain)	During routine preventive maintenance, noted a low transmitter output. Repaired of TX combiners. Degraded North Simulcast. Minimal impact.
–	02-04 1300-1400	Primary System Center, County	Reprogrammed AIMI cards for inclusion of El Cajon Police Department. Anticipated possible loss of access to conventional resources outside of local Central Electronic Bank (CEB). No impact.
–	02-05 1000-1200	North Loop (Red Mountain)	Replaced part in microwave radio. No impact noted during the maintenance.
⚡	02-08 2030-2032 02-09 0230-0232 0420-0422	East County IR (Intellirepeater), Monument Peak, Pinos, Hendrix, White Star, and Mountain Empire	Power outage caused sites to go into “failsoft” lasting approximately two minutes. This is a normal condition for momentary power outages.
–	02-11/Present	Heartland (Cowles Mountain) Microwave Radio Link	Bit error rate does not meet manufacture specifications and modems not synching properly. Parts are on order to repair this problem. Minor effect on customer operation. Information only.
▼	02-11 0746-0836	Mountain Empire Intellirepeater Site	Mountain Empire went into site trunking. Site returned on its own. Caused by a PacBell leased T1 outage. Minimal coverage impact.
–	02-12 0930-1200	North Simulcast (Mt. Woodson)	During routine preventive maintenance, noted a low transmitter output. Retuned transmitter combiner. Degraded transmitter coverage and was returned to normal. Minimal impact.
–	02-17 1000-1700	Superstition RCS Radios, Site Electrical Power	New generator was tested. Load was switched from normal to emergency power several times. The RCS radios were off the air for at least five minutes. Minimal impact to the network.
